Touching Lives

DISCOVERING VALUE

At Clariant, **discover value lies at the heart of everything we do.** It guides us as scientists, aids us as explorers, and inspires us as storytellers. It is the driving force motivating us to look deeper and discover something new for ourselves, for our clients, for our shareholders, and for the world around us.

We focus on **people, planet and performance.** That's how we **touch lives and discover value.**

Fibers – carpets, clothing, automotive interiors, etc. – are more **durable** and **flame retardant** when they contain our products.

White goods like refrigerators, washing machines, microwaves, personal electronics, etc. that use our products, have **higher performance** and **durability.**

Sensitive applications like food and personal care products are **safer and more compliant** because of our **packaging inputs**, which also **improve the shelf-lives** of packed goods.

Buildings have **more space** for living, **lowering production costs** and **reducing materials used** due to **thinner insulation boards** that are crafted as a result of using our products.

Our flame retardants enhance **fire safety** of consumer durables and buildings.

Gel bath soaps have **better colors** with **weather fastness** with the use of our pigments.

Paints have **reduced health hazards** and **aid energy-efficiency** when infused with our pigment preparations.

Recycled plastics using our inputs are **re-processed more efficiently.** **Solar panels** using our inputs **last longer.**

Our additives offer **strength** and **durability** to **PVC irrigation pipes**, thus **reducing wastage of water.**

And these are only some of the ways in which we touch lives...

AGRICULTURE

Our Licospense range for fertilizer coloration comprises oil-based dispersions, newly developed for fertilizer surface coloration. This product was developed locally to match the desired shade by choosing a suitable color index and produced at our facility at Roha. In addition, we provide enhanced appearance to seeds and allow differentiation. This helps in better visualization of high quality and efficiency. By using our safe and regulated pigments in the coloration of agrochemicals, farmers can measure optimal dosage levels of fertilizers.

Our additives and masterbatches help greenhouse cultivations, by providing durable and 'green' agricultural films. PVC irrigation pipes become more durable and strong with the help of our additives, thus reducing wastage of water.

CONSUMER GOODS

Our low-halogenated, safe pigments and nickel-free sealants find applications in high-end electronics like smartphones. Our range of sustainable, non-halogenated flame retardants find use in high-end electrical and electronic goods like laptops, consumer durables, electrical circuits and fittings. Our safe and regulated pigments are used in child-friendly products like toys and stationery.

Our range of masterbatches ensure high-performance and durable white goods like refrigerators, washing machines, microwaves, personal electronics, etc. The masterbatches foaming agents help reduce total weight of plastic and resin consumption in consumer durables, thereby contributing to energy-efficient products.

FIBERS

Our pigments find use in mass coloration of Viscose Rayon, with lesser usage of water. Our range of waxes enable processing of PP/PET fibers at lower temperatures, thereby saving energy costs. We offer a range of additives and masterbatches for various fiber applications like carpets, clothing, automotive interiors that offer flame retardancy, durability, among other such features.

HOME AND PERSONAL CARE

Clariant became the market leader to offer effective pigment dispersions for gel bars, thereby replacing dyes, and maintaining the product chemistry. Our products meet strict specifications for heavy metal and aromatic amine contents, as well as for microbiological purity and are easily miscible, even in cold water, thereby reducing energy consumption during soap manufacturing. We have also found demand for our Flexonyl dispersions, which are water-based pigment/dye dispersions that have better light fastness. Our whitening dyes find applications in detergents, thereby offering whiter, brighter, long-lasting clothes, with less usage of water. Our functional waxes – Licowax, used in applications like shoeshine, offer greater water repellency, thereby increasing shelf life of leather articles. Our range of pigments used for packaging of sensitive applications like food or cosmetics, follow global regulations and are free from lead, chromium, halogens and toxic solvents.

HEALTHCARE

Our Mevopur range of functional additives help enhance and protect medical devices and pharmaceutical packaging. REMAFIN-EP range of white masterbatches are targeted for use in safe and compliant packaging for parenteral, ocular and nasal drugs. Our solutions meet the latest industry trends for surface functionality and aesthetics while taking into account safety and regulatory compliance. Our 'open to audit' policy and controlled operations help meet FDA and other regulatory guidelines regarding fully traceable production.

INFRASTRUCTURE

Readymade color dispersions with better light and weather fastness that were compatible with bitumen formulations is a solution offered by Clariant to the construction industry. Our pre-dispersed, polyfast preparations have replaced existing powder colors, resulting in reductions in both the cycle time and cost for customers. Our range of easily-dispersible pigments, also find applications in paints used for road markings. Our range of low VOC pigment preparations, used in decorative paints, help reduce health hazards. By using IR-reflective pigment preparations in water-based exterior paints, ambient temperatures in the interiors are reduced, thus aiding energy-efficiency and long-lasting exterior finishes. Our masterbatches find use in solar panels, ensuring their longevity and thus aid sustainable energy production.

PRINTING AND PACKAGING

We offer liquid InkJet ink dispersions, which help customers to offer suitable and cost effective products in the market. They will gain more market share by replacing the imported inks with our products.

In packaging, our range of pigments reduces warpage or distortion of flexible packaging, thereby cutting down on wastage and rejections. Our masterbatches ensure safe and compliant packaging of sensitive applications like food and personal care products. Using our specialty masterbatches, processors can increase the use of renewable, degradable and compostable bio-polymers along with ensuring efficient re-processing of recycled plastics. When used for packaging applications, our additive masterbatches enhance the shelf life of packaged products.

TRANSPORTATION

Our phthalate-free pigments are used in synthetic leather applications. Our low VOC anti-oxidants used in automotive interiors are used for reducing emissions of sulfur-based gases. Our range of sustainable, non-halogenated flame retardants, find application in personal and public transportation vehicles.

Our Hydrocerol technology for masterbatches helps reduce total weight of plastics in automobiles, thereby contributing to fuel-efficient vehicles. Our masterbatches find use in interiors of automobiles and prevent the plastics from degrading due to temperature fluctuations, UV or hydrocarbon exposure. Antistatic solutions minimize dust accumulation in the interior surfaces, thereby maintaining aesthetics and prolonging the life of automobiles.

Community OUTREACH

At all our sites, we have a culture of engaging with the local communities. At the beginning of the year 2017, we adopted 'SHINE' as our theme towards CSR in India so that we promote projects that are Sustainable, Healthy, Inspirational, Nurturing and Empowering. During the financial year 2016-17, we fortified our commitment to Health, Education and Community Development through the following events and initiatives:

- Organized Sports Day at Ma Niketan in Thane and Vatsalya in Mahalakshmi. A total of 190 children were part of the various activities.
- In another activity at Ma Niketan, Children's Day was celebrated by painting the walls of the shelter home. The paint was sponsored by the Coatings Team from BU Pigments.
- Continued association with the Zilla Parishad School, at Shahpur near Mumbai managed by Vatsalya Foundation and an Ashramshala under the Gadge Maharaj Trust.
- A month-long campaign in HQ for contribution to Goonj Foundation, involved in flood relief operations in various parts of India.
- Visit to Prem Daan in Airoli, an institution that houses destitute women and is run by the Missionaries of Charity.
- Continued association with Reach Education Action Programme (REAP) Foundation, by organizing a stationery donation drive.
- Organized a major blood donation drive wherein more than 300 colleagues across all our sites in India participated to mark World Blood Donation Day.

- Roha site connected with children in the community by organizing a star-gazing activity. Continued support for the expansion of Late D. G. Tatkare High School Virzoli, with the construction of a multi-purpose hall.
- Annual notebook donation drive was undertaken at Roha and on the occasion of National Safety Week, Safety Awareness Program was organized in two schools governed by the local Municipal Council.
- Supported the infrastructure development of Vidya Vikas Mandal's Shree Dinabhai More Vidyalaya at Sanegaon, Roha, for expansion of the school with additional classrooms, repairing the old school building, and for purchase of wooden benches and desks.
- Cuddalore site was involved in several infrastructure development projects for Sangeeth Shantham Foundation School, which supports special children located in the vicinity.
- Vashere Team donated projectors, screens, water filters and coolers to the Zilla Parishad School in Vashere. Also collaborated with New English School in Amane and donated computers, water coolers and benches.
- Provided office furniture along with uniforms and shoes to children of Kankar na Muvada Prathmik Shala, Kalol, Panchmahal.
- Provided water cooler along with UV water purifier to Bharat Commerce Vidyalaya Primary School, Nagda.
- Donated notebooks along with ceiling fans for Nandesari Primary School. Also, water connection was provided to the school toilets.
- Construction of roof shed over the assembly area at Surajba Kanya Shala, Bhadarva, Rania.

ANNEXURE C

Annual report on Corporate Social Responsibility (CSR) Initiatives

(Particulars required as per Companies (Corporate Social Responsibility Policy) Rules, 2014 as amended from time to time)

1. Overview of Corporate Social Responsibility

a. Philosophy and Policy

Clariant considers sustainability as its economic, environmental and social responsibility, which is why it also forms one of the key pillars of the Company's strategy, globally. Clariant strives to foster sustainable local development as well as add value to the local economy in which it operates. From the time Clariant set its foot into India years ago, the Company has been actively involved in reaching out to the communities around its sites, be it via aiding infrastructure development in local schools or undertaking reforestation measures.

Following Clariant International's initiatives of having Corporate Citizenship Activities (CCA), the Social Charter by the Government of India and the CSR Policy framed under Companies (Corporate Social Responsibility Policy) Rules 2014, Clariant continues to work towards enhancing allocation of resources and employee engagement to the marginalized groups in the Society. Hence, Clariant has identified and is working effectively to make a difference to the society in following focus areas:

- Health Care and Community support
- Education
- Environment protection

The CSR Policy of Clariant in India has been framed in accordance with the Section 135 of Companies Act, 2013 ("Act") read with the Companies (Corporate Social Responsibility Policy) Rules 2014 ("CSR Rules") and amended as required. The Policy is applicable to all our sites and the Headquarters in India and for all the CSR Projects undertaken by the Company in accordance with Schedule VII of the Act.

At Clariant in India, CSR has been led by a principled approach by governing itself in an ethical, accountable and transparent manner. The Company caters to projects that have a focus towards an inclusive growth and sustained progress.

Clariant in India has been actively involved in several such projects in the vicinity of its sites, and aims to

achieve a long term, positive impact on society. A glimpse into the undertaken social projects:

- Bettering infrastructure towards improved health care facilities
- Creating awareness on health, safety and nutrition among children and adults
- Enhancing infrastructure development at schools
- Promoting environment sustainability

b. Activities

The Company, as part of its CSR strategy, has positioned senior representatives within Clariant in India, to drive the projects effectively. The CSR Projects are initiated through:

- NGO Partners
- Direct employee engagement

With CSR themes clearly outlined, Clariant in India works towards achieving these through the implementation of long as well as short term projects. These projects are identified across various operational units of the Company, based on the needs of the society and the philosophy of maximizing impact.

The Company completed 29 projects on Education, 3 projects in Health of which one was blood donation Campaign across sites and 8 projects in Community welfare.

c. Governance

Clariant has a dynamic structure in place for effective implementation of CSR projects and activities. The implementation of all CSR activities is taken under guidance of the Board of Directors. The Board has empowered the CSR Committee to closely monitor and report about the progress.

Clariant adopts a comprehensive approach towards creating, monitoring and utilizing the CSR budgets. The commitment is ensured at the beginning of the year and the CSR budgets are allocated as per the long term and short term projects at each site.

6. Reason for not spending the amount at 5(b):

The year 2016-17 has seen a remarkable change in Company's CSR activities. We completed 29 projects on Education, 3 projects in Health of which one was blood donation Campaign across sites and 8 projects in Community welfare. Over last year, we have seen more of our Sites and HQ actively engaged with activities and seen more of employee participation. This year we had around 586 employees participating in CSR activities near their Sites and HQ with roughly 926 hours of personal time. Our Senior Management too has participated in our projects. In June 2016, 6 of our Sites conducted a blood donation campaign for children suffering from Thalassemia. More than 300 employees both Company and Contract donated blood. The Company has been spending on CSR, on its focused themes and programs. Apart from monetary contribution, there is exemplary contribution of Company's employees on CSR projects.

The Company has devoted time in structuring its CSR projects and enhanced governance, in line with Schedule VII of Companies Act, 2013 and rules made thereunder and has laid foundation for CSR initiatives in the coming years. While during the period under review, the Company has not met the recommended spend of 2% of Average Net Profits for the last three years, the Company's thrust continues to increase the Company's CSR spend on the basis of merit of the CSR projects both monetary as well as non-monetary terms.

7. Responsibility Statement

Pursuant to the Companies (Corporate Social Responsibility Policy) Rules, 2014, it is confirmed that the CSR Committee has implemented and monitored the CSR initiatives in line with the CSR Objectives and Policy of the Company.

ANNEXURE D

Nomination and Remuneration Policy

1. Objective:

The objective of the policy is

- a. To ensure that Whole Time Directors, Key Managerial Personnel and Senior executives of high caliber are being attracted and retained and are sufficiently compensated for their performance. The Policy seeks to provide criteria for determining qualifications and positive attributes of the employees.
- b. To identify persons who are qualified to become Directors and who may be appointed in senior management in accordance with the criteria laid down herein after.
- c. To evaluate the performance of the Whole time Directors, Key Managerial Personnel and Senior Executives.
- d. To recommend to the Board on Remuneration payable to the Whole time Directors, Key Managerial Personnel and Senior Executives.
- e. To formulate the criteria for determining qualifications, positive attributes and independence of a Director and recommend to the Board a policy, relating to the remuneration for the Whole time Directors, Key Managerial Personnel and Senior Executives.

2. Criteria for board membership and board diversity:

- a. The Director must have relevant experience in Finance/Law/Management/Sales/Marketing/Administration/Research/Corporate Governance/Technical Operations/ Human Resources or the other disciplines related to Company's business.
- b. The Director should possess the highest personal and professional ethics, integrity and values.
- c. The Independent Director shall not have any material financial interest with the Company or through any of its officers, other than as a director or shareholder of the Company. Wherever required a Director should disclose the nature of his interest, if there are reasons to believe there is or a likelihood of potential conflict of interest.

- d. The Independent Directors shall fulfill the criteria specified in Schedule IV and Section 149(7) of the Companies Act, 2013 and rules made thereunder and Clause 49 of the Listing Agreement.

3. Remuneration criteria:

The remuneration policy of the Company is performance driven and is structured to motivate employees, recognize their merits & achievements and promote excellence in their performance.

For Managing / Whole-time Directors

The Board of Directors /the Nomination and Remuneration Committee of Directors is authorised to decide the remuneration of the Whole-time Directors, subject to the approval of the Members and Central Government, if required. The remuneration structure comprises of Salary, Perquisites, Retirement benefits as per the law / rules, Performance Linked Incentive / Commission and other emoluments. MANAGEMENT DISCUSSION & ANALYSIS

Economic Overview

The global economy has recovered smartly and is expected to grow at 3.5% in 2017 and 3.6% in 2018 according to the International Monetary Fund (IMF). This growth will be driven by emerging market economies, which now accounts for almost 75% of global growth. Commodity prices picked up, dispelling deflationary pressures and the job scenario in leading nations like the USA began to show growth impulses. Consumer confidence in key regions kept investor sentiments buoyant and major market indices closed the year on a positive note. Within this scenario, the Indian economy continued to be one of the fastest growing major economies with the IMF estimating that the country would grow at 7.2% in 2017 and 7.7% in 2018.

The Government pressed ahead with its agenda for progress, passing some crucial Legislative Bills, such as the Goods and Services Tax Bill, which will result in streamlining of Central and State Government taxes and pave the way for a more fair, transparent and uniform tax system in the country in the near future. This and other decisive measures, such as the demonetization drive and efforts to build on the 'Make in India' theme by allowing 100% FDI into a gamut of sectors, amongst many others, resulted in an increase in global confidence in India.

Industry Overview: Specialty Chemicals

Specialty Chemicals comprise low volume, high value chemicals with specific applications. They constitute a significant part of the Indian chemical industry. These chemicals add functionality to the working of various products and add value to them. Due to the increasing demand for value added high performance products in all spheres of life of Indian consumers today, the demand for specialty chemicals is expected to grow. Side by side, with a shift in manufacturing to the East and India's export competitiveness, India's position as a manufacturing hub for specialty chemicals is expected to strengthen. This trend is already becoming apparent in segments such as agrochemicals and colorants, in which a significant part of India's production is exported.

Globally, the specialty chemicals industry is differentiated from bulk chemicals by extensive R&D and innovation. However, such a demarcation does not exist in India due to the generic nature of the produce of the specialty chemicals industry. Nevertheless, the specialty chemicals space is an amalgamation of many unique sub-segments, which witness different industry dynamics.

The Indian Chemical Industry is the third largest producer in Asia and the sixth largest producer globally, according to the Ministry of Commerce, FICCI and CII. It accounts for about 2.11% of GDP and has an estimated market size of USD 140 Billion, within which, specialty chemicals accounts for about USD 24 Billion.

Specialty chemicals find application in various consumer, industrial and infrastructure products. Accordingly, they drive the growth of the overall economy and agrochemicals share a strong linkage with the growth of the rural economy.

The growth of specialty chemicals is driven by both domestic consumption and exports. A significant portion of domestically produced specialty chemicals such as agrochemicals, dyes and pigments, flavors and fragrances, are exported. With the launch of the Government's 'Make in India' campaign, India is expected to receive further impetus as a manufacturing hub for the chemical industry in the medium term.

The current estimated size of the Paints and Coatings industry is about ₹ 350 Billion and the industry is growing at 12-13% CAGR. Per capita consumption of paints is a little over 4 kgs, which is much lower compared to the global average. The unorganized segment has about 35% market share in the market and this consists of around 2000 small to medium enterprises. Architectural coatings constitute 70% of the market share and the balance is from Industrial coatings segment.

On the positive side, softening of international crude and commodity rates have eased the mounting cost pressures on the industry to some extent. While operating margins have not improved much, they can certainly expand in the forthcoming quarters should things continue to remain the same. All the key players in this sector have done capacity expansions and have started production from new plants.

The market for paints in India is expected to grow at 1.5 times to 2 times GDP in the next five years. Architectural paints segment is expected to witness higher growth going forward. The fiscal incentives given by the Government to the housing sector have immensely benefited the housing sector. This will benefit key players in the long term. Although the demand for industrial paints is lukewarm it is expected to increase going forward. This is on account of increasing investments in infrastructure. Domestic and global auto majors have long term plans for the Indian market, which augur well for automotive paint manufacturers. Increased industrial paint demand, especially powder coatings and high performance coatings will also propel

topline growth of paint majors in the medium term. Volatility of the Indian currency and international oil prices and worries about a normal monsoon continue to be major challenges facing the paint industry.

Per capita Plastics consumption in India is around 10 kgs. currently compared to the Global average of 27 kgs. The Government plans to increase it to 20 kgs. by 2022. The Indian polymer additive market size is around USD 400 million and is expected to grow @ 10% CAGR. The Indian Polymers and Petrochemicals manufacturing capacity is expected to grow to 50 Million Tons per annum.

Company Profile and Performance

Clariant Chemicals (India) Limited manufactures and sells specialty chemicals. Its product range has been classified into two business segments: Plastics and Coatings (Pigments, Additives and Masterbatches) and Specialty Chemicals (Dyestuff, Synthetic Resin, Functional effect and Coatings, Auxiliaries and Chemicals). The Company's products are used in various sectors of the economy, such as agriculture, infrastructure, home and personal care, packaging, consumer goods, fibers, transportation and healthcare.

The parent Company – the Clariant Group – is one of the world's leading specialty chemical company. The group contributes to value creation with innovative and sustainable solutions for customers from many industries. Its portfolio is designed to meet very specific needs with as much precision as possible. At the same time, its Research and Development is focused on addressing the key trends of today, such as energy efficiency, renewable raw materials, emission-free mobility, and conserving finite resources.

At Clariant, 'Discover Value' lies at the heart of everything. It guides the Company's research and is the driving force motivating its people to look deeper and discover value for itself, its clients and shareholders and for the world at large.

Business segments and performance

Information reported to the Chief operating decision maker (CODM) for the purposes of resource allocation and assessment of segment performance focuses on the types of goods and services delivered or provided.

The Company's reportable segments are; a) Plastics and Coatings and b) Specialty Chemicals.

Plastics and Coatings

This segment comprises of Pigments, Additives and Masterbatches.

Pigments are used for coloring paint, ink, plastic, fabric, cosmetics and other materials.

Clariant is a leading global provider of organic pigments, pigment preparations and dyes used in coating, paints, printing, plastics and other specialty applications. The Company's pigments make a difference to a whole host of products that touch everyday lives. Based on extensive experience and expertise in color, our pigments provide vibrant and safe colors to the world. The product portfolio meets the demands for key market segments that include automotive, industrial, decorative and architectural paints and coatings, plastic applications including films, fibers, detergent coloration, cosmetics, aluminum finishing, traditional and non-impact printing and electronic displays. We have a significant presence in paints, coating ink and plastic applications and have positioned ourselves as the preferred supplier to major players in the domestic market.

Innovation at BU pigments include ED Pigments for coatings : Dissolver dispersible pigments for major paint systems, saving manufacturing costs; Halogen free pigments for plastics: Guaranteed limits of halogen in pigments for electronic industry applications and Colorants for color filters for printing: Higher brightness and contrast for LCD and W-OLED displays.

This business contributes 58.2% to the total sales in the Plastics and Coatings segment and the ratio of the domestic to export sales is 63:37. During the year, the pigment business has recorded sales of ₹ 5,57.3 crores, marking a growth of 7.7%, on a like to like comparable period basis of 12 months.

Additives are performance chemicals, which are used to enhance the efficiency, safety, protection, durability and appearance of products such as plastics, coatings and printing ink. Clariant is a leading provider of non-halogenated (environmentally safe) flame retardants, waxes and polymer additives and serves customers across a wide range of applications and sectors including electronic, construction and automotive, textiles, printing and packaging. The additives business of the Company is evolving by outsourcing high technology products from Clariant affiliates to meet the demand of the domestic markets.

During the year, the additives business contributed ₹ 18.9 crores to sales. This translates into a growth of 30.1% over the previous 12 months period, on a like to like comparable period basis. With our rich product portfolio and a growing demand for additives in the domestic market, the Company foresees wide scope for growth in this business.

Masterbatches is a concentrated mixture of pigments and/or additives dispersed in a polymer medium. Masterbatch is produced by encapsulating a minimum of two or more ingredients in a polymer medium, using equipment called 'extruder'. The strands that come out of an extruder are then cooled and cut into granules.

Based on our global knowhow and with four manufacturing facilities in India, we have established ourselves as a reliable partner and solution provider for the masterbatches. We are catering to industry segments such as fiber, automotive, consumer durables, packaging, pharma and health care. Our innovation team is collaborating with strategic customers to provide solution to meet the challenges of the future.

Recently our Vashere (Bhiwandi, Thane) site has been awarded with Green Building status by IGBS that clearly compliments our global commitment to sustainability. Our technical team is continuously working to bring the solutions which are based on green chemistry or to support recyclability of plastics. We have also developed Fire Retardant masterbatches to provide solutions across different industry segments.

The masterbatches business contributed 39.8% to sales in the Pigments and Colors segment. It recorded sales of ₹ 381.4 crore during the year, posting a 7.1% increase over previous year 12 month period ended March 2016, on a like to like comparable period basis.

Specialty Chemicals

The Specialty chemicals segment includes performance chemicals for personal care and industrial applications, oil and mining services and products which have application in textile, paper, emulsion and leather industry.

Post divestment of textile, paper and emulsion (TPE) business and leather services business in the prior years, the Company has entered into supply agreements with Archroma India Pvt. Ltd. and Stahl India Pvt. Ltd., to manufacture and supply certain products which have application in TPE and leather industry respectively. The sales as part of supply agreements post divestment of these businesses for the period under review amounts to ₹ 62.2 crores and is included in this segment.

In view of the divestment of the ICS business (previous period), the performance of this segment is not comparable with the previous period.

Internal Financial Control Systems

The Company has Internal Control Systems commensurate with the size and nature of its business. Corporate policies, management information and reporting systems for key operational areas form part of overall control mechanisms. In order to supplement the internal control process, the Company has engaged the services of independent firms of professionals to function as auditors. Being authorized by the Audit Committee to assess the adequacy and compliance of internal control process, they provide their report which includes their observations and recommendations.

The Annual Internal Audit plan is approved by the Company's Audit Committee and its coverage includes business operations as well as support function activities. The key audit results and recommended management actions are presented to the Audit Committee on a quarterly basis.

Further, in compliance with the Companies Act, 2013 and SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015, the Company has laid down a system of Internal Financial Controls over financial reporting and adequacy and operating effectiveness of such controls. These controls are designed to provide a reasonable assurance regarding:

- Adherence to the Company's Policies and Procedures
- Safeguarding Assets
- Prevention and detection of fraud and error
- Reliability, completeness and accuracy of Accounts
- Timely reporting of information (Financial, Non-Financial, Internal and External)

The Internal Financial Controls and governance processes are duly reviewed for adequacy and effectiveness by an independent chartered accountant. Based on its evaluation, the Audit

Committee has concluded that, as of March 31, 2017, the internal financial controls were adequate and operating effectively.

Human Resources

The Company acknowledges that its committed and talented workforce is the key factor driving sustainable performance and growth. As one of the most critical assets of the Company, its people are responsible for its competitive advantage. In line with its business imperatives, emphasis continues to be on recruiting and retaining the most relevant talent. These resources are then nurtured, developed, motivated and empowered so that their performance is optimized.

The Company continuously conducts various growth and development enhancing initiatives for entry level and mid-level managers. It also follows a reward and recognition philosophy and its policies have always been instrumental in retaining and motivating employees. It also constantly endeavors to ensure that compensations and rewards are offered for exceptional efforts made and benefits are flexible and market aligned. Industrial relations remained cordial at all plants during the year. The total number of employees on the rolls of the Company, as on March 31, 2017 was 817 as against 843 on March 31, 2016.

Environment, Corporate Sustainability and Social Responsibility

Clariant in India commits itself to ethical and sustainable operation and development in all business activities. We strive for a business culture of continuous improvement as well as for sustainable competitiveness and top performance in consideration of Clariant's ethical standards. Accordingly, we are committed to many Clariant International's sustainability initiatives, monitor and communicate its progress on a regular basis.

Clariant is committed to the Responsible Care® Global Charter with the signing of the Responsible Care® declaration by the global CEO of Clariant, Dr. Hariolf Kottmann. In his words, "For us, sustainability means to bring in balanced environmental, social and economic performance. Sustainability enhances innovative ways to do our business. This is a necessary prerequisite for value creation." Our commitment to Responsible Care is an important step towards this direction.

Sustainability is a strategic pillar for Clariant's Business Strategy. It is an integral part of the way we work and this helps us to position ourselves in the market; build a competitive advantage through differentiation; support profitable growth; create added value for stakeholders; build a brand image and reputation and anticipate and mitigate risk. We have initiated "Sustainability@Clariant" for this purpose and it comprises all our sustainability activities. As a strong driver of our profitable growth strategy, "Sustainability@Clariant" is becoming more

and more an integral part of the way we work. Many of our newly developed products coming from our innovation pipeline are a result of our focus towards sustainability, which stands out among the competitive portfolio in the marketplace.

Clariant takes initiatives to reduce environment, health and safety risks during production, storage, distribution and also the disposal of waste. These include efficient use of energy and resources and continuous improvement of our processes to minimize the impact of our activities on the environment.

Together for Sustainability (TfS) summit

The 2016 edition of the Together for Sustainability (TfS) summit was held in Mumbai on September 19-20, with the objective of building awareness around the importance of creating a sustainable supply chain in the chemical industry. This event saw participation from over 500 delegates representing a cross-section of the entire industry. The event featured presentations from key executives of participating companies as well as industry bodies like Confederation of Indian Industry (CII), and the Indian Chemical Council (ICC). Clariant as a founding member, wholeheartedly supports this initiative and will continue to drive audits and assessments with our suppliers, supporting them towards higher sustainable performance.

World environment day

On June 5, 2016, all our sites across India conducted several initiatives on the occasion of World Environment Day. Along with tree plantation, Roha site colleagues were oriented towards new initiatives such as 'Zero Garbage Mission' and organizing an interesting session about the biodiversity of birds in the vicinity of Roha. The team at Cuddalore site planted more than 100 saplings of different varieties inside the campus and also at the Cuddalore-Chidambaram Highway, near our site. At Nandesari site, the colleagues celebrated with the theme 'Go Wild for Life'. The team at Vashere and Rania sites planted saplings in and around the site and also discussed about the effect of climate change on the environment.

Clariant listing in Dow Jones Sustainability Index (DJSI):

Clariant has been successfully listed for the fourth consecutive year this year in the DJSI and is ranked in the top three percent among the companies in the chemical sector.

The company also places significant importance on reducing environment impact and carbon footprint and has set itself ambitious environment goals regarding quality and quantity to be reached by 2025. In terms of its sustainability strategy, Clariant undertakes to comply with global standards such as Responsible Care Global Charter, Global Product Strategy and the 10 principles of the UN Global Compact.

Corporate Social Responsibility continues to be an integral part of our corporate philosophy. Following Clariant International's initiatives of having Corporate Citizenship Activities (CCA), the Social Charter by the Government of India and Company's CSR Policy, framed under Companies (Corporate Social Responsibility Policy) Rules, 2014, the Company continues to focus on its contribution in the areas of health care and community support, education and environment protection and its efforts to have a positive impact on the communities around its sites in India.

Outlook, Opportunities and Challenges

Outlook & Opportunities

- The Indian specialty chemicals market is growing at almost twice the global average. Further, India's large population base with lower per-capita consumption of chemicals and relatively strong GDP growth outlook (7-8% over the next few years) suggests a vast untapped potential. Being an established supplier of specialty chemicals to leading players from various industries, we are well positioned to take advantage of this growth.
- The Governments' 'Make in India' initiative will facilitate the industry with common infrastructure and a consequent rapid flow of FDI into the sector which will accelerate growth.
- As an environmentally conscious company, we stand to benefit from stricter environment norms.
- The Indian specialty chemicals industry continues to enjoy advantages in terms of labour costs.
- The Company enjoys additional advantages of product development capabilities, branding and distribution, in addition to having a parent company with strong research capabilities, which can be applied in domestic products as well.
- The chemical industry in India is has been encumbered with added taxations on its production capacity as well as its consumption demands. With the introduction of the Goods and Services Tax (GST), double taxation will be pre-empted as all state and central taxes will be rationalized and made consistent across the country. Consequently, future production facilities will be based more on logistical considerations and supply to consuming industries will be market driven.

Challenges

- Fragmentation and lack of scale- Only a few Indian companies have the ability to compete with global giants

on product development and innovation. CCIL is in an advantageous situation as it is one of the larger specialty chemical companies in India. It also benefits from research inputs from its parent company, enabling it to achieve more robust, sustainable growth.

- **Commoditization** – Only niche products enable companies to protect their margins. Focusing more on this segment would be of greater benefit.
- **Regulations** – The cost of compliance could make operations increasingly economically unviable for small players. Ability to scale up, offering differentiated products through innovations, implementing an effective sales and marketing strategy and maintaining high levels of regulatory standards will clearly separate winners from the crowds in this space.

Risks and its Mitigation

Clariant follows Enterprise Risk Management (ERM) tools to define, identify and assess, report and drive the mitigation of risk throughout the group. The tool is designed to provide risk score measures for each of the potential risks as well as its financial, reputational and operational impact. It also provides risk improvement plans, critical success factors and target dates to control risks.

The Company has aligned its policy on risk assessment to that of the global approach and risk assessment reports are reviewed at regular intervals. The Company has also adopted a focused approach towards risk management in the form of a corporate insurance program. The goal of this program is to optimize the financing of insurable risks by using a combination of risk retention and risk transfer. The program covers all potential risks relating to the business operations of the Company at its various locations.

As part of the global policy, the relevant parameters for all manufacturing sites are analyzed to minimize the risk associated with protection of environment, safety of operations and health of people at work. These are then monitored regularly with reference to statutory regulations prescribed by government authorities and guidelines defined by Clariant. The Company fulfills its legal requirements concerning emission, waste water and waste disposal. Improving work place safety continues to be top priority at all manufacturing sites.

The Company continues its focus on compliance in all areas of its business operations by rationalizing and strengthening

controls. This is also an important component of Clariant's code of conduct. The Company has set in place the requisite mechanism for meeting with the compliance requirements and periodic monitoring to avoid any deviation. Clariant aims to set exemplary and sustainable standards, not only through products, services and performance, but also through integrity and behavior. As part of continuing efforts to ensure that we maintain such exemplary standards and to provide employees with a good understanding of the demands of anti-bribery and corruption laws, Clariant has launched intranet-based training modules on the topic of Preventing Bribery and Corruption.

The business operations of the Company are exposed to a variety of financial risks such as market risk (foreign exchange risk, interest rate risk and price risk), credit risk, liquidity risk, etc. The risk management program focuses on unpredictability of financial markets and seeks to reduce potential adverse effects on the financial performance. The Company's business critical software is operated on a server with regular maintenance and back-up of data and is connected to a centralized computer center with physically separated server parks operated by the Clariant group. The system's parallel architecture overcomes failures and breakdowns. The global communication network is managed centrally and is equipped to deal with failures and breakdowns.

AUDITORS' CERTIFICATE REGARDING COMPLIANCE OF CONDITIONS OF CORPORATE GOVERNANCE

To the Members of Clariant Chemicals (India) Limited

We have examined the compliance of conditions of Corporate Governance by Clariant Chemicals (India) Limited, for the year ended March 31, 2017 as stipulated in Regulations 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27 and Clauses (b) to (i) of sub-regulation (2) of Regulation 46 and para C, D and E of Schedule V of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (collectively referred to as "SEBI Listing Regulations, 2015").

The compliance of conditions of Corporate Governance is the responsibility of the Company's management. Our examination was carried out in accordance with the Guidance Note on Certification of Corporate Governance, issued by the Institute of Chartered Accountants of India and was limited to procedures and implementation thereof, adopted by the Company for ensuring the compliance of the conditions of Corporate Governance. It is neither an audit nor an expression of opinion on the financial statements of the Company.

In our opinion and to the best of our information and according to the explanations given to us, we certify that the Company has complied with the conditions of Corporate Governance as stipulated in the SEBI Listing Regulations, 2015.

We state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the management has conducted the affairs of the Company.

INDEPENDENT AUDITORS' REPORT

To the Members Of Clariant Chemicals (India) Limited Report on the Indian Accounting Standards (Ind AS) Financial Statements

1. We have audited the accompanying financial statements of Clariant Chemicals (India) Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2017, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Ind AS Financial Statements

2. The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements to give a true and fair view of the financial position, financial performance (including other comprehensive income), cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified in the Companies (Indian Accounting Standards) Rules, 2015 (as amended) under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

3. Our responsibility is to express an opinion on these Ind AS financial statements based on our audit.
4. We have taken into account the provisions of the Act and the Rules made thereunder including the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

5. We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act and other applicable authoritative pronouncements issued by the Institute of Chartered Accountants of India. Those Standards and pronouncements require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement.
6. An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Ind AS financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS financial statements that give a true and fair view, in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Ind AS financial statements.
7. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Opinion

8. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2017, and its profit (including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Other Matter

9. The financial information of the Company for the fifteen months period ended March 31, 2016 and the transition date opening balance sheet as at January 1, 2015 included in these Ind AS financial statements, are based on the previously issued statutory financial statements for the fifteen months ended March 31, 2016 and the year

ended December 31, 2014 prepared in accordance with the Companies (Accounting Standards) Rules, 2006 (as amended) which were audited by us, on which we expressed an unmodified opinion dated May 20, 2016 and February 12, 2015 respectively. The adjustments to those financial statements for the differences in accounting principles adopted by the Company on transition to the Ind AS have been audited by us.

Our opinion is not qualified in respect of this matters.

Report on Other Legal and Regulatory Requirements

10. As required by the Companies (Auditor's Report) Order, 2016, issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act ("the Order"), and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in the Annexure B a statement on the matters specified in paragraphs 3 and 4 of the Order.

11. As required by Section 143 (3) of the Act, we report that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books, except that the back up of the books of accounts and other books and papers maintained in electronic mode has not been maintained on servers physically located in India.
- (c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the Cash Flow Statement and the Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
- (d) In our opinion, the aforesaid Ind AS financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act.
- (e) On the basis of the written representations received from the directors as on March 31, 2017 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2017 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the maintenance of accounts and other matters connected therewith, reference is made

to our comment in Paragraph 11(b) above that the backup of the books of accounts and other books and papers maintained in the electronic mode has not been maintained on servers physically located in India.

- (g) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in Annexure A.
- (h) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our knowledge and belief and according to the information and explanations given to us:
 - i. The Company has disclosed the impact, if any, of pending litigations as at March 31, 2017 on its financial position in its Ind AS financial statements – Refer Note 37.
 - ii. The Company has made provision as at March 31, 2017, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts. The Company did not have any derivative contracts as at March 31, 2017.
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company during the year ended March 31, 2017.
 - iv. The Company has provided requisite disclosures in the financial statements as to holdings as well as dealings in Specified Bank Notes during the period from 8th November, 2016 to 30th December, 2016. Based on audit procedures and relying on the management representation we report that the disclosures are in accordance with books of account maintained by the Company and as produced to us by the Management - Refer Note 49.

ANNEXURE A TO INDEPENDENT AUDITORS' REPORT

Referred to in paragraph 11(g) of the Independent Auditors' Report of even date to the members of Clariant Chemicals (India) Limited on the Ind AS financial statements for the year ended March 31, 2017

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Act

1. We have audited the internal financial controls over financial reporting of Clariant Chemicals (India) Limited ("the Company") as of March 31, 2017 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing deemed to be prescribed under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial

reporting was established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition,

use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, an adequate internal financial controls system over

financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE B TO INDEPENDENT AUDITORS' REPORT

Referred to in paragraph 10 of the Independent Auditors' Report of even date to the members of Clariant Chemicals (India) Limited on the Ind AS financial statements as of and for the year ended March 31, 2017

- i. (a) The Company is maintaining proper records showing full particulars, including quantitative details and situation, of fixed assets.
- (b) The fixed assets are physically verified by the Management according to a phased programme designed to cover all the items over a period of three years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the programme, a portion of the fixed assets has been physically verified by the Management during the year and no material discrepancies have been noticed on such verification.
- (c) The title deeds of immovable properties, as disclosed in Note 4 and 5 on fixed assets to the financial statements, are held in the name of the Company.
- ii. The physical verification of inventory excluding stocks with third parties have been conducted at reasonable intervals by the Management during the year. In respect of inventory lying with third parties, these have substantially been confirmed by them. The discrepancies noticed on physical verification of inventory as compared to book records were not material.
- iii. The Company has not granted any loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under Section 189 of the Act. Therefore, the provisions of Clause 3(iii), (iii)(a), (iii)(b) and (iii)(c) of the said Order are not applicable to the Company.
- iv. The Company has not granted any loans or made any investments, or provided any guarantees or security to the parties covered under Section 185 and 186. Therefore, the provisions of Clause 3(iv) of the said Order are not applicable to the Company.
- v. The Company has not accepted any deposits from the public within the meaning of Sections 73, 74, 75 and 76 of the Act and the Rules framed there under to the extent notified.
- vi. Pursuant to the rules made by the Central Government of India, the Company is required to maintain cost records as specified under Section 148(1) of the Act in respect of its products. We have broadly reviewed the same, and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. We have not, however, made a detailed examination of the records with a view to determine whether they are accurate or complete.
- vii. (a) According to the information and explanations given to us and the records of the Company examined by us, in our opinion, the Company is generally regular in depositing undisputed statutory dues in respect of provident fund, profession tax, sales tax and value added tax, though there has been a slight delay in a few cases, and is regular in depositing undisputed statutory dues, including employees' state insurance, income tax, service tax, duty of customs, duty of excise and other material statutory dues, as applicable, with the appropriate authorities.
- (b) According to the information and explanations given to us and the records of the Company examined by us, the particulars of dues of income tax, sales tax, service tax, excise duty and value added tax as at March 31, 2017 which have not been deposited on account of a dispute, are as follows:

Name of the statute	Nature of dues	Amount (₹ in lakhs)	Period to which the amount relates	Forum where the dispute is pending

* Subsequent to the year end, the Company has received revised order from the Joint Commissioner of Sales Tax based on which demand has decreased by ₹ 8,077.52 lacs.

- viii. As the Company does not have any loans or borrowings from any financial institution or bank or Government, nor has it issued any debentures as at the balance sheet date, the provisions of Clause 3(viii) of the Order are not applicable to the Company.
- ix. The Company has not raised any moneys by way of initial public offer, further public offer (including debt instruments) and term loans. Accordingly, the provisions of Clause 3(ix) of the Order are not applicable to the Company.
- x. During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, and according to the information and explanations given to us, we have neither come across any instance of material fraud by the Company or on the Company by its officers or employees, noticed or reported during the year, nor have we been informed of any such case by the Management.
- xi. The Company has paid/provided for managerial remuneration in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Act.
- xii. As the Company is not a Nidhi Company and the Nidhi Rules, 2014 are not applicable to it, the provisions of Clause 3(xii) of the Order are not applicable to the Company.
- xiii. The Company has entered into transactions with related parties in compliance with the provisions of Sections 177 and 188 of the Act. The details of such related party transactions have been disclosed in the Ind AS financial statements as required under Indian Accounting Standard (Ind AS 24), Related Party Disclosures specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- xiv. The Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year under review. Accordingly, the provisions of Clause 3(xiv) of the Order are not applicable to the Company.
- xv. The Company has not entered into any non cash transactions with its directors or persons connected with him. Accordingly, the provisions of Clause 3(xv) of the Order are not applicable to the Company.
- xvi. The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the provisions of Clause 3(xvi) of the Order are not applicable to the Company.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS for period ended March 31, 2017

Company Information:

Clariant Chemicals (India) Limited (the 'Company') is a public limited Company domiciled in India and is listed on the BSE Limited ('BSE') and the National Stock Exchange of India Limited ('NSE'). Its registered office is situated at Reliable Tech Park, Gut no. 31, Village Elthan, off Thane-Belapur road, Airoli, Navi Mumbai – 400 708, Maharashtra, India. The company is engaged inter alia, in manufacturing and selling Specialty Chemicals. The Company has its own manufacturing sites in the State of Maharashtra, Tamil Nadu, Gujarat and Madhya Pradesh.

Note 1: Significant accounting policies

(a) Basis of preparation of financial statements:

Compliance with Ind AS

These financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the 'Act') [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the 'Act'.

These financial statements up to and including 15 months period ended 31 March, 2016 were prepared in accordance with the accounting standards notified under Companies (Accounting Standard) Rules, 2006 (as amended) and other relevant provisions of the Act. These financial statements are the first financial statements of the Company under Ind AS. Refer note 48 for an explanation of how the transition from previous GAAP to Ind AS has affected the Company's financial position and financial performance.

With effect from 1st April 2016, the Company changed its financial year from 'January to December' to 'April to March'. Accordingly statement of profit and loss for comparative period is prepared for 15 months from 1st January 2015 to 31st March 2016. Hence amounts in comparative statement of profit and loss and related notes are not comparable.

Historical cost convention

These financial statements have been prepared on historical cost basis, except for the following:

- certain financial assets and liabilities that are measured at fair value;
- defined benefit plans – plan assets measured at fair value and
- share-based payments

(b) Segment reporting

Information reported to the Chief operating decision maker (CODM) for the purposes of resource allocation and assessment of segment performance focuses on the types of goods delivered or provided. No operating segments have been aggregated in arriving at the reportable segments of the Company.

The Company's reportable segments under Ind AS 108 are as follows:

Plastics and Coatings: Includes pigments, pigment preparations, additives and master batches.

Specialty Chemicals: Includes dyestuff, synthetic resins, functional effects and coating, auxiliaries and chemicals.

During the year the Company has renamed its Segment names from "Pigments and Colors" to "Plastics and Coatings" and "Dyes and Specialty Chemicals" to "Specialty Chemicals". Company has four Business Units (BU) for reporting purposes, grouped into two Business Areas (BA) (reportable segments), in accordance with Ind AS 108, Operating Segments:

- Plastics and Coating (BU Additives, BU Master batches, BU Pigments)
- Speciality Chemicals (BU ICS)

(c) Foreign currency translation

In preparing the financial statements of the Company, transactions in currencies other than the Company's functional currency viz. Indian Rupee, are recognised at the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognised in statement of profit or loss in the period in which they arise. Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

(d) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable.

Sale of goods: Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have passed to customers as per terms of contract. Amounts disclosed as revenue are inclusive of excise duty and net of returns, trade discounts, rebates, value added taxes and amounts collected on behalf of third parties. The Company recognises revenue when it is probable that future economic benefits will flow to the Company and the amount of revenue can be reliably measured.

Sale of services: In contracts involving the rendering of services, revenue is measured using the proportionate completion method and is recognised net of service tax and provided that it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably.

Interest: Interest income is accrued on a time basis, by reference to the amortised cost and at the effective interest rate applicable. Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably.

Dividend: Dividend income from investments is recognised when the right to receive dividend has been established provided that it is probable that the economic benefits will flow to the Company and income can be measured reliably.

(e) Income tax

Income tax expense represents the sum of current tax and deferred tax.

The current tax expense or credit for the year is the tax payable on the current period's taxable income based on the applicable enacted income tax rate in accordance with the Income Tax Act, 1961, adjusted by changes in deferred tax assets and liabilities attributable to temporary differences, items that are never taxable/deductible and unused tax losses/ tax credits.

Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Deferred tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying

amounts in the financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction (other than in a business combination) that affects neither accounting profit nor taxable profit. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted at the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable profits will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

Current and deferred tax is recognised in statement of profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity, in which case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

(f) Leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases. All leasing arrangements of the Company as a lessee or a lessor are assessed and classified as operating leases.

As a lessee

Rental expense from operating leases is generally recognised on a straight-line basis over the term of the relevant lease.

Rent expenses under operating leases (net of any incentives received from the lessor) are charged to statement of profit or loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases. Contingent rentals arising

under operating leases are recognised as an expense in the period in which they are incurred.

As a lessor

Lease income from operating leases where the Company is a lessor is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the balance sheet based on their nature.

(g) Business combinations

The acquisition method of accounting is used to account for all business combinations post transition date, regardless of whether equity instruments or other assets are acquired. Identifiable assets acquired, liabilities assumed and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date.

Acquisition-related costs are expensed as incurred. The excess of the consideration transferred over the fair value of the net identifiable assets acquired is recorded as goodwill. If those amounts are less than the fair value of the net identifiable assets of the business acquired, the difference is recognised in other comprehensive income and accumulated in equity as capital reserve provided there is clear evidence of the underlying reasons for classifying the business combination as bargain purchase. In other cases, the bargain purchase gain is recognized directly in equity.

(h) Impairment of assets

Goodwill and intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes are indicative in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash

inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment.

(i) Cash and bank balances

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash, cheques/drafts on hand and balances with banks of current and term deposit account. Other bank balances include balances earmarked for unclaimed dividends and which are subject to an insignificant risk of changes in value. Bank overdrafts are shown in current liabilities in the balance sheet.

(j) Trade receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less allowances for credit losses.

(k) Inventories

Cost is determined on weighted average basis. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Raw materials, packing materials, work in progress, finished goods, stock-in-trade and stores and spares are stated at the lower of cost and net realisable value. Cost of raw materials and stock-in-trade include cost of purchases. Cost of work-in-progress and finished goods include direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure (allocated on the basis of normal operating capacity).

(l) Discontinued operations

A discontinued operation is a component of the entity that has been disposed of or is classified as held for sale and that represents a separate major line of business or geographical area of operations, is part of a single co-ordinated plan to dispose of such a line of business or area of operations, or is a subsidiary acquired exclusively with a view to resale. The results of discontinued operations are presented separately in the statement of profit and loss.

(m) Investments and other financial assets**Classification**

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through statement of profit or loss), and
- those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in statement of profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income or through statement of profit or loss account.

The Company reclassifies debt investments when and only when its business model for managing those assets changes.

Measurement

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its debt instruments:

- **Amortised cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.
- **Fair value through other comprehensive income (FVOCI):** Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit or loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/(losses). Interest income from these financial assets is included in other income using the effective interest rate method.
- **Fair value through profit or loss (FVTPL):** Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in profit or loss and presented net in the statement of profit or loss within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

Equity instruments

The Company subsequently measures all equity investments at fair value. Where the Company's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss. Dividends from such investments are recognised in profit or loss as other income when the Company's right to receive payments is established.

Changes in the fair value of financial assets at fair value through profit or loss are recognised in other gain/(losses) in the statement of profit or loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 35 details how the Company determines whether there has been a significant increase in credit risk.

For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

Derecognition of financial assets

A financial asset is derecognised only when the Company

- has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

Embedded derivatives

Derivatives embedded in a host contract that is an asset within the scope of Ind AS 109 are not separated. Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Derivatives embedded in all other host contract are separated only if the economic characteristics and risks of the embedded derivative are not closely related to the economic characteristics and risks of the host and are measured at fair value through profit or loss. Embedded derivatives closely related to the host contracts are not separated.

(n) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the group or the counterparty.

(o) Property, plant and equipment

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Transition to Ind AS

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognised as at January 01, 2015 measured as per the previous GAAP

and use that carrying value as the deemed cost of the property, plant and equipment.

Depreciation methods, estimated useful lives and residual value

Depreciation is provided on a pro-rata basis on the straight line method ('SLM') over the estimated useful lives of the assets specified in Schedule II of the Companies Act, 2013, except in case of certain assets, wherein based on technical evaluation, a different useful life has been considered. The estimated useful lives of assets is as follows:

Asset	Useful Life
Factory building	30 Years
Office building	60 Years
Roads	10 Years
Plant and equipment	10 Years
Hardware mainframes and Servers	5 Years
Computers	3 Years
Furniture and fixture	10 Years
Office equipment	5 Years
Vehicles	5 Years

The residual values are not more than 5% of the original cost of the asset. The assets' residual values and useful lives are re-viewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in statement of profit or loss.

(p) Investment properties

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Company, is classified as investment property. Investment property is measured initially at its cost, including related transaction costs and where applicable borrowing costs. Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred.

When part of an investment property is replaced, the carrying amount of the replaced part is derecognised.

Investment properties are depreciated using the straight-line method over their estimated useful lives. Investment properties have a useful life of 60 years.

Transition to Ind AS

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its investment properties recognised as at January 01, 2015 measured as per the Previous GAAP and use that carrying value as the deemed cost of investment properties.

(q) Goodwill

Goodwill on acquisitions of business is not amortised but it is tested for impairment annually or more frequently if events or changes in circumstances are indicative of impairment and is carried at cost less accumulated impairment losses. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is made to those cash-generating units or groups of cash-generating units that are expected to benefit from the business combination in which the goodwill arose. The units or groups of units are identified at the lowest level at which goodwill is monitored for internal management purposes, which is Pigment and Master batches.

(r) Intangible assets

Trademarks

Directly acquired trademarks are shown at historical cost. Trademarks acquired in a business combination are recognised at fair value at the acquisition date. They have a finite useful life and are subsequently carried at cost less accumulated amortisation and impairment losses if any.

Amortisation methods and periods

The Company amortises intangible assets with a finite useful life using the straight-line method over the following periods:

Asset	Useful Life
Trademarks	10 Years
Non-compete fees	3 Years

Transition to Ind AS

On transition to Ind AS, the Company has elected to continue with the carrying value of all of intangible assets recognised as at January 01, 2015 measured as per the previous GAAP and use that carrying value as the deemed cost of intangible assets.

(s) Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid as at the end of balance sheet date. The amounts are unsecured and are generally paid within 60 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

(t) Provisions and Contingent Liabilities

Provisions are recognised when there is a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation.

Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the balance sheet date and are not discounted to its present value. These are reviewed at each period end date and adjusted to reflect the best current estimate.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

(u) Employee benefits

Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to

the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

Other long-term employee benefit obligations

These liabilities for earned leave and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

Post-employment obligations

The Company operates the following post-employment schemes:

- (a) defined benefit plans such as gratuity, ex-gratia gratuity, compensated absences, provident fund; and
- (b) defined contribution plans such as provident fund superannuation fund, employee state insurance and other funds.

Pension and gratuity obligations

The liability or asset recognised in the balance sheet in respect of defined benefit plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit or loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

Defined contribution plans

The Company's contribution to provident fund, superannuation fund, employee state insurance and other funds are considered as defined contribution plans, as the Company does not carry any further obligations apart from the contributions made on a monthly basis and are charged as an expense based on the amount of contribution required to be made. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

Share-based payments

Group share-based payments benefits are provided to few employees under senior management level settled by ultimate holding Company, Clariant AG, Switzerland and accordingly classified as equity settled share based payments.

Equity-settled share-based payments to employees are recognised as an employee benefit expense with a corresponding increase in equity. The total amount to be expensed is determined by reference to the fair value of the options granted. The total expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At the end of each period, the entity revises its estimates of the number of options that are expected to vest based on the non-market vesting and service conditions. It recognises the impact of the revision to original estimates, if any, in statement of profit or loss, with a corresponding adjustment to equity. The fair value of shares granted

is calculated based on, market value of shares, as at grant date

Bonus plans

The Company recognises a liability and an expense for bonuses. The Company recognises a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

Termination benefits

Termination benefits are payable when employment is terminated by the Company before the normal retirement date, or when an employee accepts voluntary redundancy in exchange for these benefits. The Company recognises termination benefits at the earlier of the following dates: (a) when the Company can no longer withdraw the offer of those benefits; and (b) when the entity recognises costs for a restructuring that is within the scope of Ind AS 37 and involves the payment of terminations benefits. In the case of an offer made to encourage voluntary redundancy, the termination benefits are measured based on the number of employees expected to accept the offer. Benefits falling due more than 12 months after the end of the reporting period are discounted to present value.

(v) Contributed equity

Equity shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

(w) Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

(x) Earnings per share

Basic earnings per share

Basic earnings per share is calculated by dividing:

- the profit attributable to equity holders of the Company
- by the weighted average number of equity shares outstanding during the financial year, adjusted

for bonus elements in equity shares issued during the year and excluding treasury shares.

Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

(y) Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest Rupee in Lakh as per the requirement of Schedule III of the 'Act', unless otherwise stated.

Note 2: Critical estimates and judgements

The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the Company's accounting policies.

This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the financial statements.

The areas involving critical estimates or judgements are:

- Estimation of taxes – Note 34
- Estimated goodwill impairment – Note 4B.
- Estimation for the accounting of employee benefits – Note 42

Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

Note 3: First time adoption of Ind AS – mandatory exceptions, optional exemptions

These financial statements, for the year ended March 31, 2017 are the first the Company has prepared in accordance with Ind AS. The accounting policies set out in note 1 have been applied in preparing the financial statements for the year ended March 31, 2017, the comparative information presented in these financial statements for the 15 months period ended March 31, 2016 and in the preparation of an opening Ind AS balance sheet at January 1, 2015 (the Company's date of transition). In preparing its opening Ind AS balance sheet, the Company has adjusted the amounts reported previously in financial statements prepared in accordance with the accounting standards notified under Companies (Accounting Standards) Rules, 2006 (as amended) and other relevant provisions of the Act (previous GAAP or Indian GAAP). An explanation of how the transition from previous GAAP to Ind AS has affected the group's financial position, financial performance and cash flows is set out in the notes.

Overall principle

The Company has prepared the opening balance sheet as per Ind AS as of January 01, 2015 (the transition date) by recognising all assets and liabilities whose recognition is required by Ind AS, not recognising items of assets or liabilities which are not permitted by Ind AS, by reclassifying items from previous GAAP to Ind AS as required under Ind AS, and applying Ind AS in measurement of recognised assets and liabilities. However, this principle is subject to the certain exception and certain optional exemptions availed by the Company as detailed below.

Estimates

An entity's estimates in accordance with Ind AS at the date of transition to Ind AS shall be consistent with estimates made for the same in accordance with previous GAAP (after adjustment to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error.

Ind AS estimates as at January 1, 2015 are consistent with the estimates as at the same date in conformity with previous GAAP. The Company made estimates for following items in accordance with Ind AS at the date of transition as these were not required under previous GAAP:

- Investment in equity instruments carried at FVOCI and
- Impairment of financial assets based on expected credit loss model.

Past business combinations

The Company has elected not to apply Ind AS 103 Business Combinations retrospectively to past business combinations that occurred before the transition date of January 01, 2015. Consequently,

- The Company has kept the same classification for the past business combinations as in its previous GAAP financial statements;
- the Company has excluded from its opening balance sheet those items recognised in accordance with previous GAAP that do not qualify for recognition as an asset or liability under Ind AS;
- the Company has tested the goodwill for impairment at the transition date based on the conditions as of the transition date.

Derecognition of financial assets and financial liabilities

The Company has elected to apply the derecognition provisions of Ind AS 109 prospectively from the date of transition to Ind AS.

Deemed cost for property, plant and equipment, investment property, and intangible assets

The Company has elected to continue with the carrying value of all of its plant and equipment, investment property, and intangible assets recognised as of January 01, 2015 (transition date) measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

Equity investments at FVOCI

The Company has designated investment in equity shares of Asahi Songwon Colors Limited and AksharChem (India) Limited as FVOCI on the basis of facts and circumstances that existed at the transition date.

Share-based payment transaction

The Company has not applied requirement of Ind AS 102 Share based payment to equity instruments that vested before the date of transition i.e. January 01, 2015.

Notes : Property, plant and equipment

- Buildings include ₹ 450/- (31-03-16 and 01-01-15 : ₹ 450/-) being the cost of shares in co-operative housing society
- Period ended 31-03-16 deductions include fixed assets transferred on sale of business of Industrial and Consumer Specialties (ICS) (Refer note 46)
- Period ended 31-03-16, the Company has revised its estimate of useful life of tangible assets as prescribed in Part C of Schedule II of the Companies Act, 2013, w.e.f. January 01, 2015, except for certain assets for which different useful life has been considered based on a Technical Evaluation, which management believes best represents the period over which assets are expected to be used by the Company. As prescribed in the said Schedule II, an amount of ₹ 250.46 Lakhs has been charged to the opening balance of retained earnings (net of deferred tax of ₹ 85.12 Lakhs) for the assets in respect of which the remaining useful life became Nil as on January 01, 2015 and in respect of other assets on that date, depreciation has been calculated based on the remaining useful life on a prospective basis. Had the Company continued with the useful life adopted in earlier years, charge for depreciation for the 15 months ended March 31, 2016 would have been lower by ₹ 300.48 Lakhs and the net profit for the same period would have been higher by the same amount.

Note : Goodwill

Goodwill has been allocated for impairment testing purposes to the cash-generating units as follows

Cash generating unit (CGU)	31-03-17 ₹ Lakhs	31-03-16 ₹ Lakhs	01-01-15 ₹ Lakhs
Pigment business	894.11	894.11	-
Masterbatches business	3129.54	3129.54	3129.54
TOTAL	4023.65	4023.65	3129.54

The recoverable amount of both the CGU are determined based on a value in use calculation which uses cash flow projections covering a five-year period and a discount rate of 12.60% per annum (31-03-16 : 13.18% per annum; 01-01-15 : 13.35% per annum). For both the CGU, cash flow projections during the five year period are based on the historical growth rate and margins. The cash flows beyond that five-year period have been extrapolated using a steady 5% per annum (31-03-16 : 5% per annum and 01-01-15 : 5% per annum) growth rate which is the projected long-term average growth rate.

The Management believe that any reasonably possible change in the key assumptions on which recoverable amount is based would not cause the aggregate carrying amount to exceed the aggregate recoverable amount of the cash-generating unit.

The Company's activities expose it to a variety of financial risks: market risk (including foreign exchange risk and price risk), credit risk, liquidity risk. The Company's overall risk management program focuses on the unpredictability of financial markets and seeks to reduce potential adverse effects on the Company's financial performance at reasonable hedging costs. The Company uses derivative financial instruments to hedge risks on net exposure basis.

Management identifies, evaluates and hedges financial risks under approved policies to manage overall foreign exchange risk, credit risk and investing surplus liquidity (counterparty risk).

Market risks**Foreign exchange risk**

The Company has exports to other countries and is exposed to foreign exchange risks arising from various currency exposures, primarily with respect to the Euro and the US-dollar. Foreign exchange risks arise from recognized assets and liabilities, when they are denominated in a currency other than Indian Rupee.

To manage the foreign exchange risk arising from recognized assets and liabilities, Company use spot transactions foreign currencies / foreign exchange forward contracts, on net exposure basis in major foreign currencies.

The Company undertakes transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuations arise. Exchange rate exposures are managed within approved policy parameters utilising forward foreign exchange contracts.

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows:

15 months ended 31.03.16 : by ₹ 58.36 Lakhs

Credit risk

Credit risk arises from entering into derivative financial instruments, from deposits with banks and financial institutions, as well as from credit exposures to customers, including outstanding receivables.

Customer credit risk exposure is triggered by customer default risk and country risk. As at balance sheet date, the Company does not have significant concentration of credit risk either due to size of customers or due to country risk.

Company has a credit risk policy in place to ensure that sales are made to customers only after an appropriate credit risk rating and credit line allocation process. Procedures are standardized within credit risk policy and supported by the IT system with respective credit management tools. The Company has adopted a policy of only dealing with creditworthy counterparties and obtaining collaterals viz Security Deposit or bank Guarantee as per Credit Policy, as a means of mitigating the risk of financial loss from defaults. The average credit period on sales of goods is 60 to 90 days.

The credit risk on Cash & cash equivalents and derivative financial instruments is limited because the counterparties are banks with high credit-ratings assigned by credit-rating agencies.

36 Fair value measurement and related disclosures

Fair value of the Company's financial assets that are measured at fair value on a recurring basis:

Some of the Company's financial assets are measured at fair value at the end of each reporting period. The following table gives information about how the fair values of these financial assets are determined (in particular, the valuation technique(s) and inputs used).

Financial assets	Fair value as at			Fair value hierarchy	Valuation technique(s) and key input(s)
	31-03-17	31-03-16	01-01-15		
Financial assets at fair value through profit or loss Mutual funds	11247.82	6180.07	2663.37	Level 2	Net assets value of Mutual Funds
Financial assets at fair value through other comprehensive income (FVTOCI) :					
Equity investment in Asahi Songwon Colors Ltd.	-	940.64	1000.29	Level 1	Quoted bid prices in an active market
Equity investment in AksharChem (India) Ltd.	-	226.50	-	Level 1	Quoted bid prices in an active market

Note: Investment in equity instruments are not held for trading. Instead, they are held for medium or long-term strategic purpose. Upon the application of Ind AS 109, the Company has chosen to designate investments in equity instruments at FVTOCI as the management believe that this provides a more meaningful presentation for medium or long-term strategic investments, rather than reflecting changes in fair value immediately in profit or loss.

Fair value of financial assets that are not measured at fair value (but fair value disclosures are required):

The management consider that the carrying amounts of financial assets and financial liabilities recognised in the balance sheet approximate at their fair values.

43 Share based payments

Few of the employees under senior management level have right to participate in Clariant Stock Option Plans introduced by the ultimate holding Company, Clariant AG, Switzerland.

Under the Group Senior Management – Long Term Incentive Plan (GSM-LTIP) a certain percentage of the actual bonus is granted to the plan participants in the form of registered shares of Clariant (investment shares). These shares vest immediately upon grant, but are subject to a 3-year blocking period. The plan participants receive an additional share free of cost (matching share) for each investment share held at the end of the blocking period.

Performance Share Unit (PSU) plan is a three-year vesting period plan. The vesting is conditional upon achievement of the performance targets at the end of the vesting period. If the performance targets are achieved, each PSU will be converted into one Clariant share and the plan participants receive Clariant share free of cost.

The total amount to be expensed in the statement of profit or loss is determined by reference to the fair value of the options granted and is recognised over the vesting period. Assumptions are made concerning the forfeiture rate which is adjusted during the vesting period so that at the end of the vesting period there is only a charge for the vested amounts.

Set out below is the summary of shares granted under the plans:

47 Business combinations

The Company after obtaining necessary approvals from the Board of Directors, vide an agreement dated March 31, 2015, acquired the “Carbon Black Business” from Lanxess India Private Limited (Lanxess) effective close of business hours on March 31, 2015, comprising the Carbon Black Dispersion plant located at Nagda, India, together with its respective assets, liabilities and employees as a going concern on a slump sale basis for a lump sum consideration of ₹ 1345.66 Lakhs (including non compete fees) after working capital adjustment, as at March 31, 2015. The excess of consideration paid to Lanxess over the fair value of net assets acquired is considered as goodwill amounting to ₹ 894.11 Lakhs. Goodwill recognised is on account of control premium, benefit of expected synergies, revenue growth and future market development. These benefits are not recognised separately from goodwill because they do not meet the recognition criteria for identifiable intangible assets.

This acquisition of business was strategic for the Company for survival of its current business in similar products. Entire consideration has been paid to the acquiree in cash. Since the Company has not obtained control on any cash and cash equivalent, the net cash outflow in the acquisition of the business is equal to the consideration paid. Company has not incurred any significant cost towards acquisition of this business.

Company’s current business and acquired business is in similar products and therefore Company does not maintain separate records for the acquired business. Hence it is impracticable to disclose the the revenue and profit or loss of the combined business as though the acquisition date for business combination that occurred during the previous period was April 01, 2015.

Assets and liabilities recognised at the date of acquisition are as follows:

48C Explanations for reconciliation of balance sheet and profit and loss as previously reported under IGAAP to INDAS

1 Goodwill

Goodwill is not amortised since transition to Ind AS, but tested for impairment at the balance sheet date under Ind AS compared to it being amortised over the period of 5 years under IGAAP.

2 Investment

Investments in mutual funds are carried at fair value through profit and loss under Ind AS compared to being stated at lower of cost and fair value under IGAAP. The corresponding deferred tax liability has been recognised and disclosed under Deferred tax liabilities (Net)

Investment in equity instruments are carried at fair value through OCI under Ind AS compared to being stated at cost less diminution in value, other than temporary under IGAAP.

3 Other financial assets and current assets - Loans

Long term deposits paid for renting of premises are measured at their fair value at initial recognition and subsequently at amortised cost. Under IGAAP, these financial assets were carried at transaction price. The difference of fair value and the transaction price is debited to the unamortised rent expenses which is amortised as rent expenses over the lease term on straight line basis. The corresponding deferred tax liability has been recognised and disclosed under Deferred tax liabilities (Net).

4 Deferred tax liabilities (Net)

Under Ind AS, deferred tax is calculated using balance sheet approach comparing the tax base with book balance after considering the adjustments on account of transition to Ind AS and other tax effects shown in notes 2,3 and 7 .

5 Provisions

Under Ind AS, dividend on equity shares (including corporate dividend tax) are recognised when declared by the shareholders in the Company's annual general meeting as compared to its recognition in the financials statement as a liability when recommended by the Board of directors after end of the reporting period . Adjustments reflect dividend (including corporate dividend tax), declared and approved post reporting period.

6 Employee sharebased payments

Under Ind AS, the cost of equity-settled employee share-based payments is recognised based on the fair value of the shares as on the grant date. Under IGAAP, such cost was not recognised in the statement of profit and loss since the share based payments transaction was at the parent company level.

7 Employee benefit cost

Under Ind AS, the actuarial gains and losses form part of remeasurement of the net defined benefit liability / asset and is recognised in other comprehensive income. Under IGAAP, actuarial gains and losses were recognised in profit or loss. Consequently, the deferred tax effect of the same has also been recognised in other comprehensive income under Ind AS instead of profit or loss.

8 Expenses on buy back of shares

Under Ind AS, expenses incurred for buy back of equity shares are accounted as reduction from equity. Under IGAAP, these expenses had been charged to statement of profit and loss under the head 'exceptional items'.

9 Other equity

Adjustments to retained earnings and other comprehensive income has been made in accordance with Ind AS, for the above mentioned line items.
